

7 Days to Die Solar Generator Modification

How long does it take for items to degrade?

Items will degrade slowly in solar and wind power generators, since there is no power source that doesn't need maintenance in real life. By default, the items should need repair after around 10 in game days. You can tweak this under power game settings and also fully disable it. Here I will go a bit more into the implementation details.

What is a solar cell mod?

A mod that adds a recipe for Solar Cells up to level 5 and adds a recipe for Solar Bank. This mod also modifies the power generated from Solar Power. The Solar Bank can now output a max of 360w now. The Solar Cells generate: Due to me being an early mod developer I am still quite inexperienced with some of these higher coding situations.

What is a solar power mod & how does it work?

This mod adds a range of new energy production and storage options, including solar panels, battery banks, wind turbines, and wire relays, designed to provide you with more efficient power distribution throughout your base. These additional resources will make it easier for you to power up your most critical structures.

What happens if we distribute solar power to consumer C Group?

Since we will first distribute power to Consumers B group, they might already consume all the available solar power, so when we try to distribute power to Consumer C group, no power is left (since the direct upstream generator is empty).

This modlet increases the fuel tank of the generator bank from 1k to 10k. solar cells tier 6 gives you 50w instead of 30w. solarbank max output changed from 180w to 300w. My other mods : Mods using Lam's Attribute tree ...

Well now if we're going to kit out a few solar banks @ 246,000 dukes each we better get back into the trading game! Our base is fully electrified, powered by three generators deep underground. I struggle to find an incentive ...

Die Kraft der Sonne kann auch in 7 Days To Die genutzt werden. Die Anschaffung ist jedoch eine langwierige Aufgabe, denn die Solar Bank und die dazugehörigen Solar Cell sind sehr schwer zu bekommen. Ein ...

So you could have the solar panel timer switch set for day and the generator one set for night, and feed them both into the first turret in the system and then to the others. However when the ...
