

What is Algeria's solar energy project?

Completed in 2016, the project is a prototype and part of the country's transition, aimed at preserving fossil fuel resources and reduce greenhouse gas emissions. Houari Mahi is the head of engineering of Sonelgaz Energies Renouvelables, he explains to Euronews Algeria's potential regarding solar energy.

How much solar power does Algeria have in 2021?

In 2021, solar represented only around 2% of Algeria's installed capacity with 448 MW. However, the country has an ambitious renewable energy programme, as it aims to auction 4 GW of solar by 2024 and reach 22 GW of renewable capacity by 2030, including 62% from solar PV and 23% from wind.

Where are solar panels produced in Algeria?

There are factories producing solar panels in Boukherana industrial zone, and the province of Ouargla. Algeria's renewable energy potential is enormous, mostly focused on solar. Some 60 solar photovoltaic plants, concentrated solar power plants and wind farms as well as hybrid power plants are planned.

Is Algeria ready for solar energy?

Houari Mahi is the head of engineering of Sonelgaz Energies Renouvelables, he explains to Euronews Algeria's potential regarding solar energy. "Algeria has 3,000 hours of sunshine per year, and in the case of Laghouat, it is estimated at 1,800 hours per year. This is enough to push us to invest in the construction of photovoltaic structures.

Are solar panels a good investment in Algeria?

Investors must meet some local content requirements, including using equipment manufactured in Algeria, largely solar panel and assembly structures. There are factories producing solar panels in Boukherana industrial zone, and the province of Ouargla. Algeria's renewable energy potential is enormous, mostly focused on solar.

What is Algeria's solar potential?

Because of its location in the Sahara Desert, Algeria's solar potential is huge, estimated to be as high as 14 TWh per year. Algeria's Sonatrach and Eni, the Italian oil and gas company, jointly built a 10 MW solar plant in 2017.

Ameresco Sunel Energy is a joint venture between Ameresco, from the United States, and Sunel, based in the United Kingdom, but with operational headquarters in Athens, Greece. The latter was founded in 2006 by Greek stakeholders. "The Enipeas project will contribute to boosting the local economy. The presence of workers and contractors will ...
