

Anguilla electric home generator

Welcome to Anguilla Electric Center, your premier destination for all your electrical component needs. Since our establishment in February 2008, we have been dedicated to supplying top-notch electrical products to both hotels and the wider public.

Many factors impact generator sizing and power needs for your home, but for reference, a typical home has a 200-amp capacity: A 22 kW Generac unit provides 80 amps of power; A 24 kW Generac unit provides 90 amps of power; A 26 kW Generac unit provides 100 amps of power; Larger units are available.

The electricity supply in Anguilla is primarily managed by the Anguilla Electricity Company (ANGLEC), a state-owned utility that is responsible for generating, transmitting, and distributing electricity across the island.
