What is solar energy in Armenia?

Solar energy in Armenia is an important source of renewable energy, and its technologies are broadly characterized as active solar or passive solar, depending on how they capture and distribute solar energy or convert it into solar power.

What is Armenia's largest solar power plant?

The 200-megawatt plant named Ayg-1 will be Armenia's largest solar power plant with a capacity of around half of Armenia's main energy generator, the Metsamor nuclear power plant. The plant is planned to be built in the Aragatsotn province in an area of over 500 hectares located in Talin, Dashtadem, Katnaghbyur and Yeghnik communities.

Who is Translight solar?

Translight Solar is an award-winning solar energy company that is dedicated to the provision of solar technology as a means of sustainable, reliable and green energy generation to tackle the power challenges within and beyond Ghana. Why Solar? It's simply the smarter choice full dependence on National grid. The Sun is a powerful source of energy.

Does Translight install solar energy?

Call Translight today to install solar energy for you and pay in installments just as you pay for your electricity. When you are done paying off the solar system, the system is yours and you can generate free electricity. What are you waiting for? Call us now.

What is Armenia's energy mix?

According to the International Energy Agency, in 2019 renewables represented 8.8% of Armenia's energy mix. Around 32% of the electricity generation came from renewable resources including hydro. Armenia manages to cover 24% of energy demand with domestic production, which comes mostly from nuclear and hydro energy.

How important is R&D in energy technology and innovation in Armenia?

Research and development (R&D) in energy technology and innovation in Armenia is not significant, though it is becoming more important. The government's plan to develop new renewable energy technologies will increase the need for technology and innovation funding, and for skilled human resources.
