

Who is H2Go power?

H2GO Power |9,340 followers on LinkedIn. Developing and delivering hydrogen energy storage for zero-emission, reliable and safe power supply |H2GO Power is a pioneering cleantech company. We develop and deliver hydrogen energy storage technology for zero-emission, safe and reliable power supply, with a range of commercial applications.

How can H2Go power help a commercial hydrogen project?

"This demonstration showcases our ability to deploy proprietary hardware and software solutions into a commercial hydrogen project," Luke Sperrin, CTO and co-founder of H2GO Power. "Using intelligent optimisation software, we quicken the communication during the production process and ultimately deliver hydrogen faster and more efficiently.

What is H2Go power bringing to Scotland's Orkney Islands?

LONDON, UK (May 19, 2022) -- As Europe continues to lower its dependence on fossil fuels with renewable energy, H2GO Power is deploying its state-of-the-art commercial-scale hydrogen storage technology to bring greater energy security and reliability to the electrical grid of Scotland's Orkney Islands.

What is H2Go power's HyAI platform?

H2GO Power will be using its AI platform, HyAI to provide optimisation of the interdependent variables required for a potential green hydrogen production facility, such as offshore windfarm sizing, electrolysis capacity, transport and storage capacity, water availability and offtake optionality.

Will H2Go power be a game changer?

Dr Enass Abo-Hamed, H2GO Power CEO, said: "Our technology is at the forefront of delivering a life changing, effective and scalable solution to meet the global energy demands. If successful, the pilot will be a game changer for the UK and beyond.

Why is H2Go power a green hydrogen solution?

"Not only does our solution reduce dependence on fossil fuels, but it also achieves energy security and cost savings and makes green hydrogen deployment safer, reliable, and sustainable," said Rishav Bhattacharyya, Chief Commercial and Investment Officer of H2GO Power.

As H2GO Power is present at #COP28, what is better than the announcement of contract awards by Equinor and SSE plc to advance the work on one of the largest green hydrogen projects in the world, Dogger Bank D. Dogger Bank D, a joint venture between Equinor and SSE. It is being advanced with both power and green hydrogen as potential end products. The 2 GW offshore ...
