FREETOWN, Sierra Leone (AP) -- Companies that bring solar power to some of the poorest homes in Central and West Africa are said to be among the fastest growing on a continent whose governments have long struggled to address some of the world's worst infrastructure and the complications of climate change.. The often African-owned companies ...

Attesting to the success of the Barefoot Women and their impact, the Barefoot College received a visit from the Deputy Secretary-General of the United Nations, Amina J. Mohammed, as part of a two-day official visit to Sierra Leone and a broader solidarity mission to West Africa and the Sahel Region towards the end of 2020.

The usefulness of solar energy in Sierra Leone creates economic opportunities. Open-air markets selling solar components are common, and installation companies can profit from the demand for new systems. Other entrepreneurs have built solar recharging stations and charge small fees for people to power their smartphones and other mobile devices.
