More ranchers every year make the switch to solar for their wells. We know why. We used to haul water and climb windmills too and it sucks. 94% of ranchers that switched to an RPS Solar Pump this year said they won't ever go back to ...

Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...

Cocos Islands is located near a large body of water (e.g., ocean, sea, or large lake). This section reports on the wide-area average surface temperature of that water. The average surface water temperature in Cocos Islands is essentially constant during December, remaining around 81°F throughout.

The DRE system could be of any type - solar, wind (or, even better, a wind-solar hybrid), or biomass or biofuel-based. Biofuel is a low-hanging fruit. India's agriculture sector generates huge amounts of biomass every year, which can be used directly as biofuel or processed to produce other biofuels such as ethanol, bio-CNG, and biogas.

The Cocos (Keeling) Islands only have accommodation for 144 people at any time; therefore, booking accommodation when booking flights is strongly encouraged; The minimum stay is four nights, followed by seven nights due to flight timings. I recommend staying at least seven, as you'll quickly realise just how much of a paradise Cocos really is
