

Congo Republic solar portable power station nearby

What is Kolwezi solar power station?

The Kolwezi Solar Power Station is a proposed 100 MW (130,000 hp) solar power plant in the Democratic Republic of the Congo. The power station is under development by a number of independent power producers and international financial institutions.

Could solar power be the future of energy in Congo?

Congo is one of the top five oil producers in Sub-Saharan Africa. But despite its rich energy resources, the electrification rate is low, especially in rural areas, mainly because of a lack of electricity infrastructure. But solar power could be the future as it is also said to be cheaper for households.

What will DR Congo's new power station provide?

The power station will provide an estimated 250 GWh of clean energy to the national grid of DR Congo, enough to supply 1.25 million Congolese people. Other beneficiaries include mines in the Lualaba Province, including those of copper, cobalt, gold, uranium and radium.

How much solar power is available in Kinshasa?

In the area around Kinshasa there is a further 6 gW of solar available at 7 US cents per kW hr. There is also sufficient for the rural areas around Kinshasa, Mbandaka on the Congo river and the main port of Matadi. It can even be exported over the river to Brazzaville.

Is the DRC a hydroelectric country?

This has given it enormous potential for hydro electric power and almost 100% of its grid power is HEP. The DRC is the largest country in Sub Saharan Africa occupying 2,345,000 km² with 3.32% as standing water including rivers and lakes. Its sheer size, lush vegetation and landscape has been its problem since independence in 1960.

Why is the electrification rate so low in Congo?

According to the World Bank, nearly half of the Congolese population does not have access to electricity. Congo is one of the top five oil producers in Sub-Saharan Africa. But despite its rich energy resources, the electrification rate is low, especially in rural areas, mainly because of a lack of electricity infrastructure.

Shop Jackery Explorer 2000 Plus Solar Generator 3000-Watts Portable Power Station (2 Solar Panels Included) in the Portable Power Stations department at Lowe's. Jackery, founded in California in 2012 with the vision of offering green energy to everyone, everywhere, has emerged as a trailblazer in the solar generator
