What is Bess at HKIA?

Details of BESS at HKIA Overview of design The BESS at HKIA comprises three 40-foot BESS containers, which in total provide an additional 4 MVA emergency power capacity for at least 30 minutes. All three BESS containers are installed on trailers outside the existing generator house.

What kind of diesel does a Hong Kong ship have?

Built at the Guangdong New China Shipyard in 1999, the vessel represents both generations of Hong Kong's reliable diesels. The two pump engines are a pair of Gardner 6L diesels registered for 111.9 kW (149 HP) at 1500 RPM while propulsion power is provided by a pair of Cummins NT855 diesels registered at 261.1 kW (350 HP) each.

What is a Bess system?

BESS is mainly comprised of batteries, control and power conditioning systems (C-PCS), and auxiliary systems that provide a suitable working environment and protection for batteries and C-PCS. BESS is a viable option for customer-side ESS applications in terms of its storage capacity and discharge time.

How does Bess work?

Contrary to the above, BESS-based essential power source operates by storing electrical energy from the grid and releasing it back to the airport's own 11 kV power grid. Similar to electric vehicles, carbon emission of BESS depends on the generation mix of the grid.

How does Bess provide 11 kV output?

BESS provides 11 kV output through a 400 V/11 kV step-up transformer installed outside the generator house, as shown in Figure 3. With the connection to the 11 kV switchboard, BESS is linked to the existing high voltage (HV) network. Emergency power is thus supported in the terminal, sea water pump house and airfield HV network of HKIA.

Cummins bess Hong Kong

Battery energy storage systems (BESS) are advanced energy storage solutions that store electrical energy for later use. They can be recharged when there is an excess supply of electricity, often at lower costs, or when intermittent renewable energy sources, such as solar or wind, are generating power. BESS can then discharge the stored energy to provide a ...
