OverviewService QualityElectricity supply and demandAccess to electricityResponsibilities in the electricity sectorRenewable energy resourcesHistory of the electricity sectorTariffs and subsidiesService quality in the Dominican Republic has suffered a steady deterioration since the 1980s. Frequent and prolonged blackouts result mainly from financial causes (i.e. high system losses and low bill collection) that are further aggravated by technical factors (i.e. unadequate investments in transmission and distribution). Poor service quality is also characterized by large voltage and frequency fluctuations.

Die besondere Aufgabe der xelectrix Power GmbH ist die Entwicklung von Batteriemodulen, dem aktiven Batteriemanagementsystem (aBMS) und der darauf basierenden Leistungssteuerungen des gesamten elektrischen Energiespeichersystems.xelectrix Power GmbH ist in der Lage, eine Komplettlösung für das Energiemanagement aus ...
