

What can the US and France do to improve energy security?

The United States and France share an opportunity and commitment to tackle the challenges surrounding energy security and transition. The determination of our two countries to prioritize clean energy research, development, demonstration, and deployment aims to speed the global transition to a cleaner and a more secure energy future.

When will France's smart meter rollout start?

On a long-awaited day for France's energy sector, 1 December marks the official launch of the country's nationwide smart electricity meter rollout. Between now and 2021, French grid manager Electricité de France (EDF) will oversee the deployment of 28 million of the uniquely French smart meter - the Linky.

Will France turn 80% of its legacy meter stock to smart?

Like other European Union member states, France is legally obliged to turn 80% of its legacy meter stock to smart by 2020 following a European Commission directive issued by Brussels in 2006. But unlike some member states (namely the UK) France's rollout is running on schedule. So how has the Linky project gone from conception to execution?

Will France get 95% digital meter deployment by 2020?

As France begins its nationwide smart meter rollout, we take a closer look at Linky as well as the country's path to 95% digital meter deployment by 2020. On a long-awaited day for France's energy sector, 1 December marks the official launch of the country's nationwide smart electricity meter rollout.

How will France and the United States contribute to zero-carbon generation?

In this respect, France and the United States commit to work together on new technologies and the ongoing energy transition in order to contribute significantly to zero-carbon generation solutions.

Does France have a strategic partnership with Qatar?

A case in point is France's increasing involvement with Qatar. In February, Macron announced that France was entering into a EUR10B strategic partnership with Qatar "to the mutual benefit of both countries." Paris is interested in selling weapons, including aircraft, to the gas-rich emirates.

Smart move. Smart move, I am in Australia and still need my answers! My paperwork has been lodged and am awaiting replies!
