

Installing solar panels in your home is an excellent way to save money while also helping the environment. However, if you want to reap the full benefits, you must also incorporate an off-grid home battery system.

The combination of a generator and the FranklinWH system provides uninterrupted power to homes for a long period. The Generator Module adds generator support to the FranklinWH aGate in order to provide a complete home energy management solution.

Note: If you are experiencing Wifi connection issues, check your network connection type or check your network signal strength. If your Wifi signal is weak, consider using a Wifi extender or powerline adapter if they meet the supported 10/100 Mbps standard. If you change your Wifi password after the system is connected, the system will be unable to connect and you'll need ...
