

Fronius battery Indonesia

How many branches does Fronius have?

Now Fronius is a strong global player and one of the most prominent names in the industry, represented by more than 20 branches around the world. More than 5,400 employees work together at Fronius to create a future free of fossil fuels. Fronius comprehensive endurance tests go far beyond the prescribed standards and routine operating conditions.

What is Fronius activa charging system?

Fronius has been researching and developing charging technology since it was founded in 1945. The 1990s saw inverter technology applied for the first time to pulsed charging devices for charging vehicle starter batteries. The ACCTIVA series is a starter-battery charging system.

What does Fronius do?

Its mission is to achieve 24 hours of sun. Day after day Fronius is hard at work turning this vision of a future in which 100% of the world's energy needs are covered by renewable sources into a reality. With this in mind, Fronius develops energy solutions to generate, store, distribute and consume solar energy economically and intelligently.

Where is Fronius made?

With the capture of the American market between 2002 and 2007, the company has now gained a foothold outside Europe. Fronius employed more than 8,000 people worldwide in 2023. In addition to the company's headquarters in Pettenbach and other sites in Wels, Thalheim, Sattledt and Steinhaus, Fronius also has a production site in the Czech Republic.

When did Fronius start?

In 2001, Fronius opened a factory in Pettenbach, the town in which the company started. The logistics and production site at Sattledt was opened in 2007. With the capture of the American market between 2002 and 2007, the company has now gained a foothold outside Europe. Fronius employed more than 8,000 people worldwide in 2023.
