What is GAF Energy?

GAF Energy is a division of Standard Industries, the world's largest roofing and waterproofing company, launched in 2019 to drive scalable adoption of rooftop solar. We build on a 130+ year-old heritage in the roofing industry and are led by knowledgeable and experienced solar industry veterans.

Is GAF energy the world's largest solar-roofing producer?

Manufacturer becomes world's largest solar-roofing producer with new nailable solar shingle factory: 'A very competitive product' GAF Energy is making major headway in the solar industry by becoming the world's 'largest producer of solar roofing,' according to the company and a recent article published in Electrek.

Where are GAF solar shingles made?

To support the growing demand for the new solar shingles, the company built a 450,000-square-foot factory in Georgetown, Texas. The new factory is expected to employ more than 240 people and raise the total production of its solar shingles to 300 megawatts annually, making GAF Energy the largest producer of solar roofing, as Electrek reported.
