

Green cells group Liberia

Who is greencells group?

Click here for our imprint or here for our GTC. A major player in future-proof green energy, Greencells Group develops, builds, operates and finances utility-scale solar projects worldwide.

Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

What does greencells do?

The Greencells Group is active in more than 25 countries and now employs more than 300 people. The 151 solar plants installed generate a total output of 2.4 gigawatts. To be able to guarantee the basic power supply with renewables, the company builds so-called hybrid power plants that combine solar energy with wind turbines and storage systems.

What happened to greencells?

That was the beginning of the company Greencells GmbH, which he founded together with Marius Kisauer in 2009. Initially, Greencells only installed solar modules. In 2012, there was a crash and consolidation of the German solar market, which Greencells survived and grew against the market trend.

What makes greencells a good solar company?

Our position as long-time player in solar has resulted in technology partnerships with renowned producers such as Siemens and Huawei. Greencells has also initiated strategic partnerships with Tier 1 suppliers such as Longi, Jinko and JA Solar. To guarantee longevity and maximum yield of our plants, we only use Tier 1 components.

How can Liberia improve its energy mix?

Overcoming these challenges requires strategic energy mix diversification through increased utilization of indigenous renewable resources such as solar and biomass energy. These resources hold immense potential, with Liberia boasting abundant solar irradiation and promising bioenergy in specific regions.

Since its founding in 2009, Greencells Group has built more than 170 PV plants worldwide with a combined capacity of over 3.0 GWp. We have helped to save several million tons of CO₂ for our planet. Thanks to our high quality standards and the spot-on support by our site teams, many renowned developers in the PV market are among our long ...

Greencells Group puede no haber sido fundado en el famoso garaje. Pero su historia se acerca bastante a esto. La compa#241;#237;a comenz#243; en 2009 como una peque#241;a empresa de ensamblaje en
