

Green eagle solutions DR Congo

Who is green eagle solutions?

Green Eagle is now managing over 18 GW of renewable capacity globally. Spanish startup, Green Eagle Solutions has closed a EUR6 million Series A round to bring its AI-powered renewable asset automation platform to the rest of Europe and the USA. Green Eagle Solutions sits at an important junction in the energy system.

Why should you choose green eagle solutions?

Green Eagle Solutions' technology allows green energy production to be more efficient and therefore sustainable, bringing the common goal of achieving a carbon-neutral world closer. Despite the unexpected and tough year that the world has gone through, 2020 has opened new opportunities for the entire renewable energy sector.

What is green eagle Arsos & how does it work?

With Green Eagle's technology, renewable assets contribute to the grid stability, become as reliable as traditional energy sources, and increase their profitability. The company's automation platform, called ARSOS, enables renewable assets to operate 100% autonomously, allowing customers to implement revenue-based operations.
