

Where does Grenada get its energy from?

Grenada derives almost all of its energy from imported hydrocarbons. In 2020, non-renewables accounted for roughly 98% of installed capacity and electricity generation, with solar energy making up the difference.

Who is responsible for energy projects in Grenada?

The MOID (Ministry of Infrastructure Development, Public Utilities, Energy, Transport, and Implementation) is responsible for energy programs in Grenada. MOID handles the majority of permitting related to energy projects.

How much electricity does Grenada use?

In 2020, Grenada produced 223 GWh of electricity, relying mainly on fossil fuels (98.12%), with a small contribution from solar energy (1.88%). In 2018, peak demand was 33.2 MW. In 2016, Grenada consumed 185.1 million kWh of electricity. As of 2018, 95.3% of the population had access to electricity.

Does Grenada produce oil?

Grenada does not produce, consume, import, export, or have reserves of coal. Grenada has no proven reserves of crude oil or natural gas, and does not produce refined petroleum products. During 2016, Grenada consumed 2,000 barrels of refined petroleum products per day, all of which were imported through the St. George's port.

Does Grenada have a national oil company?

Grenada does not have a national oil company. The Global Petroleum Group and an undisclosed Chinese company were heading oil exploration projects in Grenada as of October 2018. As of early 2021, approximately 235 employees worked for Grenlec on electrical generation, transmission, and distribution.

Where do companies find oil & gas in Grenada?

Companies began to search for offshore oil and gas in Grenada's waters in 2017 following the passage of a Hydrocarbon Exploration Incentive Bill. The area of focus is where the maritime boundaries of Grenada and Trinidad and Tobago meet. During a 2018 exploration by Global Petroleum Group, indications of natural gas were found.

PR - The Government of Grenada has signed a pivotal Memorandum of Understanding (MoU) to develop a wave energy pilot project in collaboration with Seabased Ltd. and SIDS DOCK. This initiative underscores Grenada's commitment to diversifying its energy portfolio and enhancing climate resilience through innovative renewable energy solutions. The ...

Here's news in brief from around the world in energy storage with liquid metal battery maker Ambri, a German government-funded sodium-ion initiative, and ESS Inc's iron flow battery project at Amsterdam

airport. Ambri files for Chapter 11 ahead of sale.

The durability and longevity in engine oil and lubricants will be unraveled as we delve deep into the engines lifeblood and lubricants. In this exploration, we unravel the secrets behind durability and longevity, thereby shedding light on how our products redefine your driving experience and uncover the secrets behind unmatched longevity and lasting performance. ...
