

# How much can the V80 overhead locker hold

Does the LDV V80 have a side door?

All LDV V80s are equipped with a single side door on the passenger side. Fixtures and fittings inside the load area are rudimentary but look tough. LDV includes easy-clean, non-slip matting in the back, and there is lighting, too. Want to know how big the LDV V80 is on the outside? All the info is in the table below:

Is the LDV V80 a good Van?

Then you've found it - the LDV V80 is by far the lowest-cost choice in the large van class. Although the price has gone up somewhat following a facelift in 2018, so it isn't quite the bargain it once was. Still, the V80... The LDV V80 panel van comes in just three versions, split across two wheelbase lengths (SWB and LWB) and three roof heights.

What is the maximum load width of a LDV V80?

Each version of the van has a maximum load width of 1,770mm, with 1,380mm between the rear wheel arches. The rear door entry width is 1,550mm, and the doors themselves fold back up to 255 degrees on long-wheelbase models. All LDV V80s are equipped with a single side door on the passenger side.

How much weight can a v80 carry?

Gross Vehicle Weights peak at 3.5 tonnes and all vans get a cargo area that provides 770mm load width behind the wheel arches and 1380mm between the wheels. While the V80 matches some of the best large vans for load spaces, it falls a little flat on carrying capacity with payloads peaking at 1419kg.

Is the LDV V80 a heavyweight lifter?

The LDV V80 is not a van for heavyweight lifters - it better suits small operators who need cheap space rather than outright load capacity. The maximum payload ratings are as follows: As for gross vehicle weight (GVW), the SWB model is rated at 3.2 tonnes (3.2t or 3,200kg), while the LWB models are rated at 3.5 tonnes (3.5t or 3,500kg).

What is a LDV V80?

The LDV V80 is offered in a number of body configurations which include tipper, dropside and Luton box van. However, for most buyers, the panel van will be the V80 of choice. Available in two wheelbases and three roof heights, cargo volumes start at 6.4 cubic metres and rise to 10.2 and 11.4 for long wheelbase models with a short or high roof.
