How will Eurasian countries contribute to the development of green energy?

Amidst intense competition among energy powers, the Eurasian countries will require shared use of scientific and technical potential. This will ultimately create a broad synergetic effect for the development of the region's green energy.

Why is the United energy system of Central Asia important?

For a long period, the efficient operation of the water and energy complex of the region was ensured by the Soviet model of cooperation, where the key element was the United Energy System of Central Asia (CA UES). The CA water and energy complex was formed and developed in a complex manner, as an important component of the united CA economic region.

Why is the Eurasian Economic Community launching large-scale projects & research programmes?

The Eurasian Economic Community is now rolling out large-scale projects and research programmes. Due to its geopolitical and territorial features, especially the availability of isolated and inaccessible territories, development and implementation of renewable energy technologies has huge prospects for the future.

How can India develop overland trade connectivity with Southeast Asia?

Economic interests are leading India to seek to develop overland trade connectivity with Southeast Asia through infrastructure projects linking India with Southeast Asia through Burma. The India-Myanmar-Thailand Trilateral Highway and the Kaladan Multi-Modal Transport project are two key initiatives. 157 Chabahar

Why is the Indian Ocean a strategic vulnerability?

Approximately 80% of China's, 90% of South Korea's, and 90% of Japan's oil passes through the Indian Ocean. 8 This economic dependence on energy and trade transiting the Indian Ocean has become a strategic vulnerability for these states at a time when the United States is becoming less dependent on imported energy.

Why should Indian Ocean littoral states compete against China and India?

The competition may offer increasing opportunities to Indian Ocean littoral states to play China and India off against each other to extract foreign aid, military assistance, expanded trade and investment, and other advantages.
