How many MW is a solar power plant in the Ivory Coast?

The authorities in the Ivory Coast have completed a 37.5 MW solar plant, with a second development phase now underway to increase its capacity to 80 MW. The first phase of a solar power plant in the northern part of the Ivory Coast has been inaugurated.

Where is Ivory Coast's first solar power plant located?

Ivory Coast's first solar power plant, located in the northern town of Boundiali, was commissioned in 2022. It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers.

How many solar plants will Ivory Coast have by 2040?

Mamadou Sangafowa Coulibaly, the Ivory Coast's Minister of Mines, Oil and Energy, has announced plans to install 678 MW of solar capacity by 2030 and 1,686 MW by 2040. According to the government's website, there are plans for 12 new solar plants with a combined capacity of 628 MWp.

When will Ivory Coast's solar projects be commissioned?

Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW. The country is now working toward deployment targets of 3,500 MW in 2025, 5,200 MW by 2030 and 8,600 by 2040.

How much energy does the Ivory Coast have?

It currently has a capacity of 37.5 MW, but Coulibaly says this is set to expand to 80 MW, with financing for the expansion already approved by the Council of Ministers. The Ivory Coast has vowed to reduce its greenhouse gas emissions by 32% and increase the share of renewable energy in its energy mix to more than 40% by 2030.

How much does the Ivory Coast electricity project cost?

The project, which has a total cost of EUR 75.6 million (\$81.8 million), is expected to power 70,000 homes, saving 60,000 tons of CO<sub>2</sub> equivalent per year. It is creating more than 300 direct and indirect jobs during construction. The project is part of efforts to diversify electricity production in the Ivory Coast.

Ivory Coast has joined the World Bank Group's "Scaling Solar" program in November 2019, which aims to develop 60 MW of grid-connected solar power in the country through two PPP projects, creating a new regional market for solar investment.

At a meeting of the Council of Ministers on 28 February 2024, the Ivorian government approved a socio-economic development policy for the east of the country, focusing on sustainability. Households and economic activities in this part of Ivory Coast will be powered by photovoltaic solar energy.
