

What is Iraq's gas growth integrated project?

We compliment Iraq and Total Energies on the signing of a \$27-billion energy deal that will accelerate Iraq's path to energy self-sufficiency and advance Iraq's collective climate change objectives. Years in the making, the Gas Growth Integrated Project aims to capture flared gas and deploy renewable energy sources.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's Total Energies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

Why is energy important in Iraq?

Energy in Iraq plays a crucial role in both the national economy and the global energy markets due to the country's vast oil reserves and significant status within the Organization of the Petroleum Exporting Countries (OPEC). Iraq holds abundant oil and gas resources and has strong solar PV potential.

Does Iraq have a green energy plan?

Iraq intends to generate 25% of its energy from green sources by 2030, and in 2022 made \$750m in low interest loans available to fund solar initiatives. An increase in renewable power will drive growth in green hydrogen and ammonia production.

Does Iraq have a reliable electricity grid?

Now, two decades after the 2003 US invasion, Iraq has failed to see improvements in the electricity infrastructure. Although the disparity between supply and demand is widening due to population increase and rising temperatures, corruption remains the largest obstacle to a reliable electricity grid.

Who is the new third party in Iraq's Energy deal?

Total will have a 45 per cent stake, while QatarEnergy was confirmed as the new third party in the deals, with 25 per cent. Emad Al-Alaq, the energy adviser to Iraq Prime Minister Mohammed al-Sudani, confirmed the agreed size of the stakes.
