

# Italy lithium battery boxes

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

Do you need a shipping box for lithium batteries?

UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS' lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That includes isolating loose cables and poles.

Where is Italvolt battery factory located?

Italvolt has made a strategic decision to locate its battery cell factory in Italy, the country where Alessandro Volta invented the battery in 1800. Today, Italy holds significant opportunity for the modern battery industry, with its strategic location and highly skilled workforce.

How is a battery made in Italy?

Made in Italy from green and sustainable materials and in vertical production. From the active material (Lithium - Iron - Phosphate), through the production of the cell using a water-based process, to the battery system including our BMS (battery management system).

What is lithium ion battery packaging?

Our lithium ion battery packaging is suitable for different industries. The ORBIS IonPak is certified to transport solid dangerous goods. That includes lithium-ion batteries, airbags, belt tensioners and other automotive components that need certified packaging solutions for storage and transport.

How can a European lithium battery supply chain be sustainable?

The goal is to help develop a European lithium battery supply chain that is both sustainable and based on a circular approach. It is estimated that, in Europe, a total of around 200,000 tons of lithium batteries will have to be recycled by 2030. Therefore, this project will help make the energy transition more sustainable.
