

What is the energy system in Kuwait?

Kuwait's energy system structure is relatively simple. The main demand sectors include power (electricity generation and potable water production), primarily an energy conversion sector, industry (chemicals, petrochemicals, and minerals and metals industries), transportation, and agriculture sectors.

Does Kuwait need a new energy strategy?

To ensure economic development and social prosperity in the years to come, Kuwait will require a new energy strategy, combined with a plan to foster economic diversification and reduce fossil fuel dependency.

Are Kuwait national oil companies coping with the energy transition?

Kuwait national oil companies (i.e., KPC and its subsidiaries) need to examine and analyze the strategies that the major international oil and gas companies are adopting to overcome or mitigate the negative impact of the energy transition.

What happened to the energy conservation code in Kuwait?

The energy conservation code put in force in 1983 in Kuwait lacked effective monitoring, verification and enforcement. The 1983 code was not revised for 27 years, and the buildings sector is a major source of inefficient energy consumption, with a very large stock of energy-inefficient buildings.

How to stimulate the political system in Kuwait?

Policy measures are proposed to stimulate the political system. From the highest political ruling institute through the Amir of the State of Kuwait, the country announced its keenness to meet 15% of the local energy demand from renewable sources by 2030. Since the announcement in 2012, there has not been an effective assignment toward the goal.

Who controls the oil sector in Kuwait?

The government of Kuwait owns and controls all development of the oil sector. The Prime Minister heads the Supreme Petroleum Council (SPC), which oversees Kuwait's oil sector and sets oil policy. The other members of the council (six ministers and six representatives from the private sector) all serve three-year terms, and are selected by the Emir.
