Symbior Solar Siam implements energy solutions to meet this demand that are quickly implemented and sustainable. Symbior Solar Siam's power plant located in Kranuan, Khon Kaen, will provide 1,700 MWh of electricity per year to the community, using 15,000 thin-film photovoltaic (PV) modules supplied by First Solar.

Solar energy is integral to the success of the program. These projects with Symbior highlight solar's growing recognition and visionary companies are active partners in meeting the goal of 20 percent of the country's electricity supply being produced from renewable sources by 2036,&quot; said Alexander Lenz, President of Conergy Asia & Middle East.
