The Old Battery may make the most of Bermuda's history but this is a modern house on an island looking to the future. The Old Battery is on the market for \$23 million via Rego Sotheby's International Realty, +1 441 505 0389, regosothebysrealty . Francesca Steele is senior property writer at The Times

The problem with the Bermuda sensor is that it switches to an Unknown state when it can't detect what room you're in, such as when you leave the house. To detect if I'm home or away I use a Device Tracker, which meant I ended up with two sensors for tracking myself. The BLE sensor for the room, and the device tracker for home or away.

Modular vs fixed . Some batteries are modular, which means you can add or remove modules if your energy requirements change. For example, you may expect your household to grow or ...
