

Nomadd desert solar solutions Botswana

Who owns nomadd desert solar solutions?

NOMADD Desert Solar Solutions, a photovoltaics cleaning system and spin-out company from KAUST, has secured a strategic investment by the Saudi construction company CEPCO. File photo.

Where is nomadd developed?

NOMADD was developed at the King Abdullah University for Science and Technology, (KAUST) near Jeddah, Saudi Arabia. Why NOMADD? Waterless, laborless and fully automated desert ready solution. If playback doesn't begin shortly, try restarting your device.

Does nomadd clean solar panels?

NOMADD supplies waterless robotic cleaning systems for solar arrays. In the Middle East dust is the primary factor affecting solar plant performance. As all eyes in the solar industry are now focused on the many huge solar deployments in the pipeline across the region, the question of solar panel cleaning is a key part of the conversation.

Who is CEPCO investing in nomadd desert solar solutions?

File photo. NOMADD Desert Solar Solutions, a photovoltaics (PV) cleaning system and spin-out company from KAUST, has secured a strategic investment by the Saudi Arabian construction company CEPCO. The Series B investment round will support NOMADD's project pipeline and will further strengthen the company's growth ambitions.

Who owns nomadd & CEPCO?

NOMADD was founded in 2012 as a spin-off from King Abdullah University for Science and Technology (KAUST) and has its headquarters in Saudi Arabia. KAUST and DSM Venturing are the Series A investors in NOMADD. CEPCO is a leading construction company in the Saudi power transmission and distribution industry.

What is a nomadd partnership with CEPCO?

The partnership with CEPCO will extend beyond funding, with the construction company advising on technology development and local manufacturing in Saudi Arabia. NOMADD colleagues Ahmed Aldawsari (left) and Georg Eitelhuber stand next to a NOMADD device located on the KAUST campus. File photo.

all desert solar array applications. After years of careful research, design, and field testing, NOMADD is the unbeatable waterless, laborless, and fully automated desert ...

Thanks to the Patented "Cleaning Angle" mechanism, NOMADD is unbeatable at scale. The unique "pivoting brush endpoints" allow the system to operate with several key advantages: Only two direct drive motors on the entire assembly. - All the electro-mechanical components are in the "head" of the machine.

14. What specifications are needed to install the NOMADD on different array designs? Ideally, integration of the NOMADD system with an array design occurs at the design phase of the array mounting structure. The system can vary simply be integrated during the design phase with a simple custom bracket that links the track to the mounting structure.

Desert winds pick up the dust and push it onto the solar panels, all day every day. Sometimes you can have dust storms which put so much dust on the solar panel surface, you can lose 60% of your output in a single day." Actually, solar ...

NOMADD Desert Solar Solutions, a photovoltaics (PV) cleaning system and spin-out company from KAUST, has secured a strategic investment by the Saudi Arabian construction company CEPCO. The Series B ...

Using desalinated water to clean solar panels is counterproductive to real value, and environmentally unsustainable. 4. Complex or under designed solutions do not survive long, and sourcing solutions from overseas makes for long ...

NOMADD specializes in autonomous robotic cleaning solutions for solar panels, particularly designed for harsh desert environments. The company offers a fully automated, water-less cleaning system that is cost-effective and designed to operate without the need for power transmissions, cables, gears, or pulleys.

NOMADD DESERT SOLAR SOLUTIONS PTE. LTD. was incorporated on 15 November 2013 (Friday) as a Private Company Limited by Shares in Singapore. The Company current operating status is live with registered address at SHAW CENTRE. The Company principal activity is in ENGINEERING DESIGN AND CONSULTANCY SERVICES IN ENERGY ...

Nomadd Desert Solar Solutions - a Saudi-based solar technology company 02:15 PM. The technology at the core of NOMADD was developed at KAUST. It is now deployed on a variety of commercial projects across the region, including the upcoming 16MW Dubai reservoir project, the world's largest rooftop. Nomadd recently secured series B investment from ...

The startup, NOMADD Desert Solar Solutions has created a simple way to solve this problem: it's called the NO-water Mechanical Automated Dusting Device, from which the startup gets its name. The design includes a long 3-5 meter tube, which runs along rails from one end of a solar panel array to the other cleaning as it goes.
