

# Papua New Guinea solar reserve

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Are solar and biomass resources available in Papua New Guinea?

Solar and biomass resources have been presented in this article because of their huge availability in Papua New Guinea. With the engagement of remote sensing and geographic information system technology, potentially suitable areas were identified and mapped for biomass and the availability of solar radiation.

Does Papua New Guinea have a country Factsheet?

Specifically for Papua New Guinea, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Does Papua New Guinea have solar insolation?

The least amount of incoming solar insolation was received in the month of June with 5.24 Kw/m<sup>2</sup>/day in the north-facing direction. This is the period when the Southern Hemisphere is experiencing winter. During this time of the year, Papua New Guinea is experiencing torrential rainfall and fewer sunshine hours.

Why should you use solar power in PNG?

WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG. This is for a variety of reasons but with recent developments in the PNG energy market its now safe and legally compliant to use solar for certain applications.

Is Papua New Guinea a resilient country?

As per Papua New Guinea's (PNG) Vision 2050, the country should be a resilient country by using sustainable development measures to provide for power generation which is 100 percent renewable, and to contribute towards the reduction of GHG emission.

"With 300 days of sunshine in many parts of the country, there's great potential to harness solar power for businesses and households," Lighting Papua New Guinea highlights. The program, supported by the governments of Australia ...
