

Pylontech price U S Virgin Islands

What is a pylontech battery?

Pylontech is a lithium battery: modular, with 19' rack format, at 25,6V and 2,55 kWh and 48V available at 2,4 and 3,5 kWh Storage capacity and designed to work more than 6000 cycles with 80 % DoD.

Why should you choose pylontech battery?

Its long life characteristics, highest energy and power density in the industry, fashionable design, easiness of installation and expansion, all reflect the real requirements of end users and the strong technical capability of Pylontech. This compact and modular battery promises more than 6000 cycles with 90% DoD.

How long does a pylontech battery last?

Pylontech-designed and manufactured cells, modules, and BMS ensure the highest quality and longest possible life, offering up to 8,000 cycles at 95% depth of discharge. The combination of Pylontech lithium batteries and Victron inverters has been tested and certified by both Victron and Pylontech R&D departments.

How much does a pylontech module weigh?

In this case, each Pylontech module has a weight between 24 to 32 Kgr, depending of the model.

What is a pylontech LiFePO4 battery?

Pylontech lithium & LiFePO4 batteries, are Low Voltage modular batteries, with a nominal voltage of 24 and 48 volts under 19' Rack format, and compatible with the main inverter manufacturers: Victron Energy, Voltronic, Studer, Voltronic, Sungrow, Imeon ...

How many pylontech batteries can be installed in parallel?

Pylontech batteries can be installed in parallel into the same Rack, with a maximum of 8 units for model US2000B, 12 units of model US300 or up to 16 units of model US 5000; and by using Pylontech LV-Hub you can install up to 5 Racks in parallel, that allow us to arrive to big capacity storage systems with lithium batteries, from 2,4 up to 210 kWh.
