

What is a smartflower solar panel system?

The SmartFlower solar panel system, however, definitely deserves this title. The distinct design of the SmartFlower system directly influences the way it functions. The SmartFlower consists of 12 'petals' which open up at the beginning of the day when the sun comes out.

Are smartflower solar panels expensive?

Most of Smartflower's beautiful and unique sun-tracking solar sculptures aren't purchased by homeowners. Cost is a big reason. Smartflower solar panels unfurl in the morning and track the sun across the sky. In a world filled with countless rectangular solar panels, Smartflower is a rare, novel solar product.

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

Is smartflower a good solar system?

Despite its high efficiency, Smartflower's cost is significantly higher than traditional solar solutions. Equipped with self-cleaning panels and a monitoring app, Smartflower offers models for both grid-connected and off-grid setups, including an EV charging option.

Is smartflower better than a rooftop solar system?

The system achieves a certain degree of self-utilization of nearly 60%, which is a significant improvement compared to a rooftop unit. A traditional rooftop solar panel has an average utilization of around 30%. Also, Smartflower reduces output losses by up to 15%.

How tall is a smartflower Solar System?

Its design facilitates an installation process that is as straightforward as possible for a solar system of its scale. With its solar "petals" extended, Smartflower reaches a height of 16 feet. The inverter and optional batteries are located within its base.

Enseñe a los niños los conceptos básicos de la energía solar, de una manera práctica y atractiva, invitando a presenciar los movimientos de Smartflower, producto de su sistema de seguimiento solar.
