

Where can SAFT Batteries be found?

Saft's batteries and battery systems can be found in all four corners of the world- and even in space. From the Arctic Circle to the Sahara Desert, or within NASA and European Space Agency vessels, we provide state-of-the-art batteries and battery systems. Our offering also includes end-to-end expert service for these extremely diverse markets.

Who is Saft battery?

For more than 100 years, Saft has been specializing in advanced-technology battery solutions for industry, in space, at sea, in the air and on land in remote and harsh environments from the Arctic Circle to the Sahara Desert. Today, Saft is a wholly-owned subsidiary of TotalEnergies.

What are SAFT Batteries used for?

Whether it be for aerospace or transportation, telecom & networks or oil & gas, health or energy utilities, Saft batteries are used for numerous applications and on all continents. From the Arctic Circle to the Sahara Desert, or within NASA and European Space Agency vessels, we provide state-of-the-art batteries and battery systems.

How many battery designs does Saft produce?

At Saft, we produce over 400 different battery designs to suit virtually every requirement, each optimized for energy and power, guaranteeing integration with the electrical architecture of all fixed-wing and helicopter aircraft - even drones.

Are SAFT Batteries safe?

For over 100 years, Saft's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers. As a leading battery company, Saft's innovative, safe, and reliable technology delivers high performance on land, at sea, in the air, and in space.

The right Ni-Cd and Lithium battery choice for the oil & gas industry. For decades, Saft's global network has been supplying long-life primary lithium batteries, rechargeable lithium and ...

Saft solar nickel battery system delivers reliability and cost-efficiency for Pertamina offshore gas platform  
Customer case study Download (English) Sunica plus Ni-Cd storage batteries for solar energy rural electrification in Madagascar Customer case study Download (English) Inquire Now.

Compact. Les nouvelles batteries au nickel Compact de Saft permettent de rationaliser l'espace et de réduire les budgets de maintenance des sites industriels. La nouvelle gamme de batteries de secours au nickel est conçue pour supporter les systèmes critiques dans des installations industrielles éloignées et difficiles d'accès

**Features & Benefits.** Constructed in robust and reliable Saft NiCd; pocket plate, our block nickel batteries function in a wide range of temperatures, resist electrical abuse, shock and vibrations and need only basic maintenance. This ensures a low total cost of ownership (TCO) over a life cycle that can last 20 years or more.

**Key benefits of Saft's Ni-Cd aircraft battery systems .** Reduced maintenance: Our PBE technology reduces maintenance requirements by over 50 percent; Long service life: Smart design, high-quality materials and solid construction extend ...

The Saft Xcelion 6T; is a 24V rechargeable Li-ion battery system designed as a drop-in replacement for traditional lead-acid 6T batteries in military ground vehicles. It provides the power equivalent to two lead-acid batteries at 25% of ...

De la chimie aux syst;mes, en passant par l';lectronique, Saft con;oit et fabrique des syst;mes batteries Li-ion sur mesure. Que vous soyez ;quipementiers ou int;grateurs de v;hicules, les solutions compl;tes et enti;rement int;gr;es de Saft savent s'adapter au mieux ; vos exigences.

We provide turnkey solutions up to hundreds of MW's that integrate a Saft lithium-ion battery system with power-conversion devices as well as power control and energy-management functions. Saft's lithium-ion energy storage systems batteries are used for: Large renewable integration (PV and wind farm) installations

Customized battery solutions. Saft is designing and manufacturing any tailor-made Li-ion battery, from chemistry to systems, including electronics. For customers designing their own electric powertrains or completing vehicles for ...

Saft is a specialist in high-tech batteries for the industry, from design and development to production, customization, and service provision. For nearly 100 years, Saft has been providing its customers with batteries with increasingly long lifespans, for backup power and propulsion of their critical applications. ...

We publish this thought-leadership in white papers, making all the newest developments in battery technology accessible to everyone. Download a white paper today for free. ...
