

Slovakia hpe smart storage energy pack 1 firmware

What's new in HPE smart array advanced pack?

HPE Smart Array Advanced Pack 1.0 and 2.0 features are now part of the baseline features of HPE SSA, with the appropriate firmware. HPE SSA will allow you to configure and manage your storage as before, but now with additional features, abilities, and supported devices.

How are HPE firmware binaries distributed?

HPE and partner vendor (Intel, Mellanox, Marvell, etc.) firmware binaries are packaged in Smart Components. They are distributed individually via the online HPE Support Center or grouped in support packs like the Service Support Pack for ProLiant (SPP).

How do I get support for HPE SSA or smart array controllers?

For support for HPE SSA or Smart Array controllers, please visit [Contact HPE](#). Users will automatically be logged out after a predetermined period of inactivity when using HPE SSA and will have to re-login. On the Web-based Management Device Homepage, under "options", "Anonymous Access" should be enabled when using HPE SSA.

How do I install the energy pack?

Install the energy pack option. Route and connect the cable. Do not connect the energy pack while the server is operating. Verify that all power to the server has been removed. Install the fan cage. Install the access panel. Install the server into the rack. Connect each power cord to the server. Connect each power cord to the power source.
