

How many solar panels does New Caledonia have?

Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), estimated to be enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will also feature a lithium-ion energy storage system with a capacity of nearly 10 MW.

What is New Caledonia's largest solar power plant?

The project involves building and operating a solar power plant with a capacity of 11.2 MWc in the South Province, in Boulouparis. The power plant, which is the largest existing solar facility in New Caledonia, comprises 43,000 panels covering 20 hectares. It was commissioned at the end of April 2017.

Why is AfD cofinancing the largest solar power plant in New Caledonia?

AfD is cofinancing the largest solar power plant in New Caledonia to allow cleaner energy to be generated. 43,000 photovoltaic panels will be installed, with a capacity to produce electricity for the equivalent of 5,400 households.

Who owns New Caledonia's energy?

The energy produced will be sold via a long-term power purchase agreement to Enercal, a semi-public company majority owned by New Caledonia. A similar (but smaller) project has also been financed at the same time in Temala in the North Province. It is the first photovoltaic power plant on customary land.

New Caledonia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Horseshoe Solar is a 180 mega-watt, industrial-sized, massive, solar power plant planned for Rush and Caledonia impacting 3,857 acres, which is approximately 5,000 football fields! There ...

AEG Power Solutions announces that the first ecopx hybrid power station is now fully operational. The complete integrated solution was part of a contract signed with OPT (Office des Postes ...

Peter Goodman is the President and CEO of Solar Power Network (SPN) He founded the company in 2009 with a focus on distributed generation as the building block of the smart grid. Prior to founding SPN, Peter served as Chief Engineer at TELUS. The significant accomplishment of the build-out of over 1000 ground and rooftop cellular sites provided ...

Present in New Caledonia for more than 20 years, Total Quadran is the leading local independent producer of 100%-renewable electricity. It manages 7 solar power plants with a cumulated capacity of 50 MWp. Nearly 140,000 residents of New Caledonia use the clean energy produced by Total Quadran. Total and Low-Carbon
