What is solar for farms?

Our solar for farms solutions are designed to help farmers reduce their energy costs, increase their productivity, and improve their profitability. With a solar system on your farm, you can power irrigation systems, machinery, and other farm equipment with clean, renewable energy.

Do you install quality solar equipment?

We only install quality equipment. We use reputable brands, from solar inverters to panels and batteries. We know good equipment means good guarantee periods so we try and take advantage of this for our customers' benefit. Our mission is to increase awareness and adoption of solar energy.

Why should I hire a professional for my solar system?

Hence it is of utmost importance to have your proposed solar system designed and sized by a qualified professional. As a company, we have successfully completed close to a thousand installations over nine years with each project different in size and scope. We have done both commercial and home installations, on and off-grid setups.
