

Where are solar power plants located in Montenegro?

Montenegro is rich in solar radiation, particularly in the southern part, especially around the cities of Bar and Ulcinj, and in the area around the capital city of Podgorica. Solar power plants are located in these areas due to the high solar radiation.

Where is Res Montenegro planning a solar project?

A section would be placed in the cadastral municipality of Lastva, which RES Montenegro Group is also eyeing for its own project. Sunrise Europe, based in the seaside town of Kotor, intends to set up a solar park with a peak capacity of 220 MW in Žavnik while the company Obnovljivi izvori energije is preparing to build a 225 MW facility in Cetinje.

Where is electricity produced in Montenegro?

The majority of electricity in Montenegro is primarily produced at the Pljevlja coal-fired Thermal Power Plant and the Perucica and Piva Hydropower Plants. The core activities of the majority state-owned Electrical Power Company of Montenegro (EPCG) are electricity generation, transmission, distribution, and supply.

Is biomass a source of electricity in Montenegro?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Montenegro: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Does Montenegro have hydro power plants?

Montenegro has the potential to develop additional hydro power plants given its abundance of rivers and streams, as mentioned in the Agreement of the Electro-Energetic Community for Southeastern Europe signed on January 1, 2015. The country's energy market was opened to competitors.

Who is Res Montenegro?

RES Montenegro Group received the urban planning and technical requirements for a photovoltaic facility with a connection capacity of up to 506 MW. The project in Cetinje is the biggest in Montenegro and one of the largest ones in Southeastern Europe. The company Montenegro Investment and Holdings achieved the same milestone for a 12.5 MW facility.

For the exploitation of solar energy and construction of solar power plant of installed capacity of over 200 MW, the Montenegrin Government drafted an amendment to the Spatial Plan of municipality of Ulcinj in relation to a long-term lease of the land in the Briska Gora location. The statement from the Government said that the
