

Tilt renewables ltd Heard and McDonald Islands

Who owns Tilt Renewables?

Mercury NZ and Powering Australian Renewables (PowaAR) have acquired the operations of Tilt Renewables in their respective countries. New Zealand-based electricity generation company Mercury NZ and Australian infrastructure investment fund Powar reached a scheme implementation agreement to acquire Tilt Renewables' assets in March.

Will Mercury Energy buy Tilt Renewables?

Since its largest shareholder announced a strategic review of its investment in December, the company has been readying itself for offers. Photo /SUPPLIED. Mercury Energy and an Australian partner appear to have won the race to buy Tilt Renewables, an Australasian wind farm developer which was spun out of TrustPower, bidding almost \$3 billion.

Did Powar take over Tilt Renewables?

The takeover was successful in August 2021. PowAR took over the Australian assets and operations of the former Tilt Renewables, making it the largest private developer and generator of wind and solar electricity in Australia. The combined Australian organisation was subsequently renamed back to Tilt Renewables.

What does Tilt Renewables do?

Tilt Renewables acknowledges the Traditional Custodians of the lands on which we work and recognises their continuing connection to land, waters and community. We pay our respect to them and their culture and to elders past and present.

Will tilt acquire Powar & Mercury?

On Monday Tilt Renewables announced that it had entered a scheme implementation agreement under which it was proposed that PowAR would acquire its Australian business and Mercury would acquire the New Zealand business. Conducted through a scheme of arrangement, Tilt shareholders will be offered \$7.80 a share, valuing Tilt at \$2.96b.

Does Tilt Renewables have a wind farm?
