

Does Vanuatu have a green energy fund?

With the National Green Energy Fund established and functioning, Vanuatu is well positioned to deliver renewable energy access and achieve energy savings across key economic sector including water, agriculture, fisheries, and tourism.

How can VGET contribute to a sustainable future for Vanuatu?

VGET's work on renewable energy sources will play a significant role in shaping a sustainable future for Vanuatu, with the project to serve as a valuable inspiration for other Pacific Island Countries and Small Island Developing States on their own paths towards a sustainable future.

Will Vanuatu continue to use the RE-SAT platform?

An estimate for a quote was presented to the Government of Vanuatu for continued use of the platform beyond the RE-SAT project period. "The Department of Energy is working towards achieving the goals of the National Energy Road Map (NERM) 2030, and it is timely that this project comes to fruition.

How has Vanuatu changed its energy policy?

Revision of previous policy?: The updated NERM acts as the national energy policy. Since it was launched, Vanuatu's economy and energy sector have continued to develop. External events, such as Cyclone Pam in early-2015, have also shaped how energy sector policies and priorities are conceived.

How can Vanuatu improve energy security?

In Vanuatu there are resources to support hydro-, wind-, solar-, and geothermal-based electricity generation, which could reduce the reliance on imported diesel. In addition to improving energy security, this would contribute to a more sustainable energy supply.

What does the updated NERM mean for Vanuatu's energy sector?

The updated NERM acts as the national energy policy. Since it was launched, Vanuatu's economy and energy sector have continued to develop. External events, such as Cyclone Pam in early-2015, have also shaped how energy sector policies and priorities are conceived. The purpose of this document is to update the NERM to reflect recent developments.

F O N D A M E N T A L Coconut (Cocos nucifera L.) genetic improvement in Vanuatu: overview of research achievements from 1962 to 2002 Part 1: Improvement of the Vanuatu Tall by mass selection Jean-Pierre LABOUISSÉ1 ...

5 Energy mix in Vanuatu Figure 3: Energy Mix in Vanuatu Source: UNELCO, VUI & URA Regulatory Reports 2016 Figure 3 illustrates the consolidated energy mix in Vanuatu for all electricity service areas. Energy from thermal source continued to lead the share of the energy mix in 2021, similarly to past years.

The Minister of Climate Change Adaptation, Ralph Regenvanu, is confident that Vanuatu is on track to meet its target of transitioning into 100% renewable energy in the electricity sector by ...

The new map would detail the central role of renewable energy balanced with energy efficiency and introduces the economic opportunities for green growth. The map formulates five key priorities of the energy sector: access through ...

The Government of Vanuatu through the Ministry of Climate Change are taking concrete actions to mitigate climate change by promoting the use of Renewable Energy (RE) and Energy Efficiency (EE) technologies. These will help ...

The collaboration marks GE's first urban district energy project in Australia. Clarke Energy Australia, GE's authorised distributor for Jenbacher gas engines in Australia, ...
