

West Solar Power

The West Burton Solar Project is named after its grid connection point at the existing National Grid substation at the West Burton Power Station. The proposals comprise a number of land parcels (the "Site" or "Sites") described ...

Here at the Eco Renewables Group, we supply and install the full variety of necessary products to get your solar power system up and running. From the solar inverter and the solar battery ...

Future West Solar has helped 100s of homeowners install residential solar power systems, and the results are brilliant: clean energy, higher home values, and offset energy costs. Our team ...

Replace around 24% of the generation capacity of the coal powered West Burton Power Station. Support regional and national targets for reducing carbon emissions to net zero by 2050. Improve energy resilience by diversifying ...

If there is a power cut your inverter will switch off, which stops any generation from your Solar Panels entering the property. This is a safety feature to protect workers who may be repairing the grid. However, we can install a back-up ...
