

What are the lockers with hidden doors

What is a locker & how does it work?

The Locker is a common hiding place found in most rooms, it keeps the player safe from most aggressors nearby. A dark grey locker made out of metal, it includes a small window in the front with multiple bars/shutters that connect from one side of the window to the other. A handle can be seen in the new version.

Is it safe to open a room without a locker?

Any room where A-60 spawns will always have lockers, meaning opening rooms without lockers is considered safe and players won't need to worry about A-60. A-120 is similar to A-60, though the room before opening the room with A-120 will always have lockers, and the next room may not.

What happens if you hide in a locker?

Hiding inside of a locker will cause you to be safe from most dangerous entities, with one of the exceptions being The Darkness, who attacks players who have been hiding for too long. Pressing any movement key causes you to exit said locker.

How do you hide inside a locker?

A dark grey locker made out of metal, it includes a small window in the front with multiple bars/shutters that connect from one side of the window to the other. A handle can be seen in the new version. Left clicking on a locker while being near it causes your character to hide inside of it (assuming Shell isn't inside of it).

Should I camp at lockers when opening a new door?

I highly recommend camping at lockers when opening new doors. There are several room types with lockers that are next to or very close to the door. In these types of rooms with lockers, I always open the door and immediately backtrack towards the nearest locker. If I do not hear a sound cue, I know that I can continue.

What do occupied lockers do?

Occupied lockers (by Shell or other teammates) are highlighted in red. All teammates will be highlighted in yellow if you're hiding. Can kick out Shell from an occupied locker, removing the stun it deals and only consuming 10 stamina. Performed automatically. A gift from the Rite of Greed, your selfish thoughts turn on its head.

Like in the Hotel, it will attack you if you're hiding in a locker for too long. Once triggered, you'll need to play the heartbeat minigame--if you lose twice, you'll take 40 damage and be forced out of hiding. You also cannot go back into the ...
