

# What can be placed in the storage compartment under the trunk of Haval H9

How much boot space does the Haval H9 have?

The Haval H9 SUV has a boot space size of 747 Litres. (The passage also mentions wheel and tyre options, but those details are not relevant to answering the question and should not be included in the Fixed Passage.)

Does the Haval H9 have cargo storage?

With the rear-seats folded down, however, the Haval H9 has 747L of cargo storage on offer in the boot, making it significantly more practical than a number of seven-seat SUVs thanks to its clever packaging of the rear seats that fold completely flat.

What is the fuel consumption of a Haval H9?

The Haval H9 SUV has an estimated fuel consumption of starting from 10.9L/100km. The dimensions of the Haval H9 SUV vary according to year of manufacture and spec level. It has a boot space size of 747 Litres.

What is the Haval H9?

The Haval H9 is a large family SUV that was brought to the Australian market in 2015. It seats seven and is classed against the Toyota Land Cruiser Prado, Hyundai Santa Fe, Mazda CX-8, and SsangYong Rexton.

How many seats does a Haval H9 have?

Most Adventure SUVs have 7-seater configurations, but the H9 falls into an elite category: its rearmost seats, when electrically (!) deployed, are suitable for adults (we've evaluated several 7-seaters, only to find their 3rd rows are usually suitable for small children only). The secret to the Haval's carrying capacity is its physical dimensions.

What is the towing capacity of the Haval H9?

The Haval H9 has a maximum towing capacity of 2500kg for the latest model available. The model range is available in the following body types starting from the engine/transmission specs shown below.

A high-spec H9 at under \$60,000 would be interesting indeed, although you'd feel it'd still steal sales from GWM's own Tank 500. Not least if the H9 can match its 3000kg towing capacity. We're told the old H9's 2500kg rating has been ...
