

Established as Yazaki electric wire corporation in 1963 and changed its trade name in 2012. (055)924-2230  
General plastic wire, polyethylene wire, power cable, communication cable,  
fire-resistant/heat-resistant/disaster prevention cable, ecology cable, branched cable (Yazaki branch)  
(0550)89-1811

Under the slogans of “Decommoditization” and “Returning to the origins of YAZAKI,” production and sales development are united to continue internal business expansion and new business challenges. As the energy society changes, this is an opportunity to develop products that optimally utilize diverse energy sources.

A Yazaki absorption chiller-heater, using water as the refrigerant, is today's best choice in air conditioning for protecting the environment and reducing the cost of energy. Capacities of 5 through 200 RT are available to either cool or heat installations such as schools, offices, hospitals, industrial facilities, and hotels.

Our founding president, Sadami Yazaki, created our distinctive arrowhead trademark back in 1951 to signify development and progress. The color red symbolizes our passion and spirit of unity. These traits are alive today at Yazaki Energy Systems, Inc.

waste heat for process cooling. Our thermal chillers support fuel switching and cogeneration, helping businesses achieve carbon ...

At Yazaki Energy, we specialize in the professional installation of energy-efficient systems for commercial and industrial applications. Our experienced team ensures seamless integration of cooling systems, cogeneration units, and ...

Since the sales of the "LP10," the first commercialized LP gas meter in Japan, in 1963, Yazaki Group has been providing equipment and services for the safe use of gas, an indispensable source of energy for our lives. ... Yazaki Energy System Corporation Gas Equipment Operations 23 Futamatacho Minamikashima, Tenryu-ku, Hamamatsu City ...

Explore Yazaki Energy's collection of technical documents, product brochures, case studies, and literature on energy-efficient cooling solutions, sustainability, and carbon-neutral technologies. Download our resources today. ... To make it easier to find the document you are looking for on any Yazaki Energy Systems, Inc. product, we have ...

?Optimized for customers considering to save energy by utilizing waste heat for both cooling and heating.  
?Cooling and heating can be switched automatically and can be operated with direct fired absorption chiller.  
?Able to provide cooling and heating capacity of 10RT~90RT by installing multiple units.

Discover the wide range of energy solutions applications by Yazaki Energy, from industrial cooling systems to cogeneration and energy storage solutions. Learn how our efficient products improve performance across various industries.

Yazaki MG-Series gas-fired DOUBLE-EFFECT chiller-heaters, with cooling capacities of 150 and 200 tons of refrigeration, are designed for commercial applications where chilled water and hot water are used in a central air conditioning system. The condenser is water cooled and heat is rejected through a cooling tower.

Established Yazaki Energy System Corporation(formerly Yazaki Electric Wire Co., Ltd.), to become a comprehensive producer of all types of energy. 2021. Launched water fired chiller for cogeneration. By recovering hot water up to a lower temperature, the waste heat of the generator can be fully utilized.

Explore Yazaki's water-fired piping systems, designed for fuel switching, biomass integration, carbon neutral cooling, and waste heat recovery solutions. ... Yazaki Energy Systems, Inc. 542 Haggard Street, Suite 502 Plano, TX 75074-5562 Phone: (469) 229-5443 Fax: (469) 229-5448

Water Fired SINGLE-EFFECT Chiller or Chiller-heater Yazaki water-fired SINGLE-EFFECT chillers (with cooling capacities of 5 to 100 tons of refrigeration) produce chilled water for cooling, while chiller-heaters (with cooling capacities ...

5,10,20,30 and 50 RT. S-Series Water Fired Single Effect Absorption Chiller / Chiller-Heater. General Description. The Contractor shall furnish and install \_\_\_\_ (Qty) Yazaki model WFC-S \_\_\_\_ Water Fired, Single-Effect, Absorption Chiller(s) / Chiller-Heater(s) as shown on the drawings and in accordance with these specifications.

By utilizing waste heat, our systems maximize energy efficiency while reducing operational costs. In addition, our thermal chillers and non-electric chillers provide effective process cooling, ensuring optimal performance without the need for electric power. ... Yazaki Energy Systems, Inc. 542 Haggard Street, Suite 502 Plano, TX 75074-5562 ...

CH-KGST saves energy by utilizing waste heat such as exhausted steam from the factory and cogeneration system. 1. Cooling capacity of 105~211kW is now available. ... Yazaki's original steam input control system enables it to prevent affection to other steam requiring equipment.

Yazaki Energy Systems Inc | ????????? 255 ???? LinkedIn A Corporation in Step with the World. A Corporation Needed by Society. | Yazaki Energy Systems, Inc. (YESI) is a global leader in the manufacture of non-CFC based absorption chillers and chiller-heaters. Our gas-fired chiller-heaters can provide cooling or heating, while using much less electricity than a typical ...

Yazaki's Thermal Solutions We will contribute to the reduction of CO<sub>2</sub> emissions and the realization of a carbon-neutral society by converting previously unused &quot;heat&quot; into &quot;chilled water&quot; and proposing various types of cooling applications.

The CHMG gas-fired cogeneration system from Yazaki Energy combines high-efficiency power generation with thermal energy output, making it ideal for industries aiming to reduce their carbon footprint and enhance energy efficiency. Whether for fuel switching, load shifting, or capturing waste heat, this system delivers reliable and cost-effective ...

The water-fired thermal chiller offers a cutting-edge solution for businesses looking to optimize energy efficiency. With advanced capabilities for fuel switching, cogeneration, and waste heat recovery, this system helps achieve ...

Established Yazaki Energy System Corporation(formerly Yazaki Electric Wire Co., Ltd.), to become a comprehensive producer of all types of energy. 2021. Launched water fired chiller for cogeneration. By recovering hot water up to a ...
